Lorena Campos began her distinguished career in 2011 at the Texas Trial Lawyers Association, one of Texas' most influential statewide trade associations. Within three years, she established a solid professional presence at the Capitol, working closely with legislative staff and elected officials. She supported the Public Affairs team and senior staff extensively, ensuring the association's legislative goals were met.

Seeking to further her potential and explore new opportunities, Lorena transitioned in 2014 to the Texas Strategy Group, a well-established bipartisan Austin firm, as their Government Affairs Legislative Director. During her time there, she assisted in representing over 20 clients, including corporations, trade associations, coalitions, and public sector entities throughout Texas.

Campos Consulting Group is dedicated to delivering high-quality state government consulting services to clients before the Texas Legislature and state government agencies. Our goal is to add value to our clients through our role as government affairs professionals, performing these essential tasks in the following ways:

- We understand that each client has unique needs, and we work collaboratively to ensure their expectations are met and exceeded. Our first priority is to gain a substantive and comprehensive understanding of their issues.
- The second component of providing high-quality services is establishing strong working relationships with key legislators and agency staff who influence your issues. Our extensive work history has allowed us to build connections with most legislators, providing a solid platform as new legislators arrive in Austin and as key committee chairs and leaders change.
- Third, we support and nurture these relationships through active participation in political efforts and contributions, attending both national and local legislative conferences, and hosting dinners and other events regularly.
- The fourth key to our service provision is our work ethic. Our goal is to work harder than anyone else and develop a deep understanding of our client's issues within the broader context of the legislative environment.
- Fifth, CCG adheres to the strictest standards of ethical behavior and compliance with the state's ethics lobby registration and reporting laws. Legislators trust us to provide honest and factual representations of our clients' positions. We have earned this trust over the years and consistently frame our services within these boundaries.
- Finally, we maintain regular communication with our clients to ensure they are informed about our activities and insights. Our communication is tailored to meet the specific needs and preferences of each client.
